Now, tell me what's all this talk about mutiny in Russia?" said the Busy Man, impatiently "The revolution has come at last," was the Conand if not stamped out, so the rest of Europe says, it will blow up the Czar's autocracy. It was fired by the mutinous crew of the battleship Kniaz Potemkine, of the Black Sea squadron, which slow its commander at sea, hoisted the red flag and then bombarded Odessa. Thus encouraged, the mob, already riotous, rose in revolt and set fire to the quays, the waterfront buildings and the shipping. The population was still further frenzled by the funeral of one of the ship's crew, whose murder by the commander led to the mutiny. He was killed because he complained of the soup. inforcements of Cossacks later arrived and killed city to be in a state of war."

"Meantime the mutiny broke out at the Baltic naval stations of Libau and Cronstadt. Fearful cenes of bloodshed followed. Four thousand mutinous sailors at Libau were surrounded by troops and many slaughtered. One thousand surrendered at once to escape death. At Cronstadt eight thousand imperial sailors, along with workmen in the shipyards, suddenly went on strike. Elsewhere revolts also broke out. Practically all Poland is aflame. Warsaw and Lodz have been drenched with blood. Rioters built barricades in the streets, as the French Commune did, and hundreds were butchered by the Cossacks. Men, women and children were cut down for merely leaving their houses. Ten thousand Jews fled from Lodz in ter-ror. In country districts, peasants have been burning estates and killing landlords. M. Bezobrazoff, who, as president of the Yalu Timber Company, had made a vast fortune out of the Manchurian policy which led to the war, barely escaped with his life from his country place in Tambov Province. The Caucasus provinces, too, are aflame, and many massacres between Turks and Cossacks are

philosophically. "Careful-go slow," responded the Constant Reader with a warning finger. "Mutiny has also showed itself among the military. A regiment at Lodz when ordered to fire on defenceless people re-fused. It was transferred at once for fear the disaffection would spread. New troops are being mobilized, and to prevent mutiny the Grand Duchess is distributing gifts among them."

"These fellows, I suppose, will be sent out for the Japanese to kill," remarked the Busy Man. "Not at present," was the reply. "They will first have a chance to die at home in trying to put down insurrection."

"Don't the Russians need more men at the front?" asked the Busy Man quickly.

"General Linevitch might use them to help cover his retreat," said the Constant Reader with half "All say the Japanese have him trapped. They've got his army strung out in a long line, and while holding him Oyama is sending other troops against Vladivostok. Dysentery, meanwhile, at Harbin is killing thousands of Russians. In every encounter the Czar's men are thrown back. On sea the few Russians left are causing some trouble. They are bravely sinking unprotected merchantmen, including the British steamships Ikhona and St. Kilda, and the Danish Princesse Marie. The peace envoys are to meet in August, and at their conference China wants to be represented, to see that her rights are respected."

"You said at our last talk, the Chinese were boycotting our goods. What's been done about it?"

"President Roosevelt has sought to pacify the Chinese," was the answer. "The boycott was caused by a too severe enforcement of our exclusion laws. Chinese who ought to have landed without difficulty here have been held up. The President ordered our consuls in China, therefore, to see that

chants, teachers, students, travellers, be properly accredited on leaving China, so that they can enter this country freely. Notwithstanding, the boycott

"Haven't heard much lately about war in Eu rope," remarked the Busy Man.

"France and Germany are more kindly disposed," replied the Constant Reader. "They've concluded that Morocco is not important enough to fight over France has practically agreed to an international conference to decide what privileges each power shall have in Moroccan affairs. Germany, however, has shown some bitterness toward England, its press charging that country with trying to embroil two European neighbors. The tension between Norway and Sweden, on the other hand, has increased. Members of the Swedish Riksdag made speeches advocating war to prevent Norway's permanent secession, and the Norwegian troops are said to be mobiliz-ing on the frontier. The Kaiser may take a hand, for he is going to make King Oscar a visit. And here's more news. Mr. Balfour was upheld by the Commons, which refused to pass a motion of investigate the scandal a commission headed by Justice Farwell was appointed. Africa, too, is a thorn for the Germans, who have lost heavily in overcoming the Hereros. An insurrection in Arabia threatened the Sultan's rule there. In India it's said Lord Curzon will resign, because he has been overridden by Lord Kitchener. Panama is ravaged both with fever and bubonic plague."

"Such pestilences, I suppose, have held up the canal work?" was the Busy Man's comment. "Not so much as the resignation of John F. Wallace, the chief engineer," was the rejoinder. Mr. Wallace said he had a position with a better salary. He was severely censured by Secretary Taft, who told him that his act really amounted chief engineer of the Great Northern Railroad, wa chief engineer of the Great Northern Railroad, was appointed in his stead, with a salary of \$00,000. Mr. Taft and his party, including Miss Alice Roosevelt, who are to make a tour of the Philippines and Japan, left Washington on Friday. "Didn't he also say something about our juries?" asked the Busy Man.

"You are thinking of Secretary Taft," said the Constant Reader. "Mr. Taft told the Yaie Law School graduates that because of the weakness of our jury system there are eight times more murders now than thirty years ago. He said only one murderer in eighty nowadays is executed. Accordingly lynching, he said, was becoming more popular; and, do you know, the very next day down at Watkinsville, Ga., a mob dragged out eight negroes and strung them up. In Delaware blood was shed in serious race riots. Philadelphia, too, has been by no means quiet. Mayor Weaver threatened 'Boss' Durham with arrest for his interest in city contracts and forced the Councils to revoke the permits of the traction company to lay tracks in the street. Another investigation into alleged 'graft' is being made in the Department of Agriculture, where, it is charged, officials employed in getting up the cotton reports gave out tips on the market. Two big boat races took place. In one Yale beat Harvard, and in the other Cornell won out ahead of Syracuse, Georgetown, Columbia, Pennsylvania and Wisconsin."

"Some one told me that the Standard Oil Company was accused of an illegal combination with certain Southern railroads," said the Busy Man.

"Some one told me that the Standard Oil Company was accused of an illegal combination with certain Southern railroads," said the Busy Man. "That charge was made before the Interstate Commerce Commission," was the Constant Reader's reply. "Meantime Mr. Rockefeller gave away \$11,000,000. Of this, \$1,000,000 went to Yale University and the rest to the General Education Board for higher education. Yale also got \$1,000,000 from other sources. The Equitable tangle was mended some. Nine new directors were named by the trustees of the Ryan stock. Salaries have been cut and pensions cancelled. Superintendent Hendricks began an investigation of the Mutual, at the request of its president, and other companies are also likely to feel the probe. It would seem, too, that the Department of Buildings ought to be investigated. A building in Riverside Drive tumbled down, and an airshaft of a remodelled structure in \$2d-st. caved in. Superintendent Hopper is also charged with neglecting to inquire into a disastrous collapse in Central Park West that occurred last spring."

"Secretary Hay's illness seems to perplex the doctors," said the Busy Man, "Mr. Hay is dead," said the Constant Reader. "His illness took a fatal turn that was unexpected. Others who died last week were William J. Fielding, the actor; George E. Macklin, a steel man, of Pittsburg; Jacob S. Reymer, also of Pittsburg, a boyhood friend of Carneste and Phipps; Graeme Stewart, of Chicago; Richard T. Lowndes, son of the late Governor of Maryland; Captain R. D. Graham, of Washington, and Georges Rodrigues, the Paris banker. The last two committed suicide."

### ORIENTAL AND MANHATTAN BEACH.

Manhattan Beach, fresh and smiling, has awakened from a long sleep and has assumed its summer garb. There is evidence on every hand that the coming season will be an unusually gay one. Guests are arriving daily, and the number of persons wishing accommodations over the Fourth is exceptionally large. As usual, a majority of the guests are New-Yorkers, although there is a fair representation from other cities, including Paris and London. This little stretch of land and sea is famous nearly the whole world over because of the many distinwhole world over because of the many distin-guished persons who yearly enjoy its lavish hos-pitality. The close proximity to New-York City, permitting the head of the family to sew-fork city, permitting the head of the family to enjoy the delights of shore life and sea air and still keep in touch with the business world, is a point greatly in favor of this resort. Many of the regular guests who yearly summer here are once

more settled for the summer. Mrs. M. E. Lewitz, who always spends much time in driving, has brought down her thoroughbreds and a smart turnout for the summer. A number of automobiles belonging to guests are in the garage back of the Oriental. Although early in the season, there have been several yachting parties enjoying the cool breezes and the invigorating salt spray. Austin Corbin has his yacht anchored in Sheepshead Bay, and he and J. Greaves, of the Oriental, are out whenever the weather permits.

Count Cini, of New-York, is spending a few days at the Oriental. Senator Pettigrew is also at the Manhattan Beach Hotel for a short vaca-

The new boardwalk connecting Manhattan

The new boardwalk connecting Manhattan Beach and Brighton Beach is one of the popular features of this resort. Every day this promenade along the ocean is crowded with guests from the beach hotels. The Japanese village termed the Paradise of Japan, opened its ploturesque grounds to the public yesterday. It is situated directly west of and within a stone's throw of the Manhattan Beach Hotel. Several acres which were formerly a sand plot where children were wont to play have been converted into a garden inclosed with an ornamental fence. Within the inclosure are tea houses, and there are also performances of jujitsu and other Japanese specialties. An artificial lake, with waterfalls, bridges and dwarf trees and flowers of foreign appearance add to the charm of the garden. It is the idea of the management to have jinrikishas drawn by coolies running between Manhattan Beach and Bright. On. The Manhattan Beach Theatre, with Eddia Foy as a leading light, was comfortably filled all last week with patrons from the two hotels and from nearby resorts. A couple of box parities from the Oriental marked the opening night. Henry Dixey will be its leading attraction this week.

## AT STROUDSBURG, PENN.

Stroudsburg, Penn., July 1 (Special) .- One of the most noticeable and appreciated improvements which have been made to the town this spring is the addition of bowling alleys by Howell Brothers, and that the local sports are enthusiastic over the game is shown by the large number of tournaments which are being played. This week an exciting contest was played between the local organization and a fast team from Water Gap, which resulted in an easy victory for the Stroudsburg men.

Band concerts are doing much to afford amusement to city folk, while the variety of

amusement to city folk, while the variety of sport to be had is not to be excelled anywhere. Trout streams are still being lined with many fishermen, eager to get a last beauty as a trophy of the outing here. The season is most promising, and never before have the resort owners been so pleased over the outlook for early July. Of course, the Fourth will be celebrated as in former years with events to combrated, as in former years, with events to com-memorate the nation's birthday. There will be two games of baseball in this town on that day between the local team and the New-York Field Club. Many New-York "rooters" will accompany the team. The game this week between the local team and Morristown, both fast teams of the Lackawanna League, resulted in a victory for the latter, with a scant margin in the
